# **The Libertarian Party.**

“... for the overtaxed, overregulated, overburdened and under-powered millions of the American middle class, they're the only people worth voting for.”

- Nicholas von Hoffman, *The Washington Post*

“Libertarianism has surfaced . . . as an ideology matched to the mood of many disgruntled Americans. The Party's slogan, 'Legalize Freedom', gives Libertarians a unique appeal on both the right and the left.”

- *Newsweek*

## **A Rational Political Alternative**

America's newest and fastest growing political party is the Libertarian Party. Founded in 1971, the LP now is organized in all 50 states and was the only new party to receive an Electoral vote in the 1972 Presidential race. Its philosophy is based on your rights as an individual to life, liberty and property. Its platform calls for a free market economy, a strict respect for civil liberties and a non-interventionist foreign policy.

The public is tired of the Washington power-brokers offered by the Democrats and Republicans. We need a new direction -- the Libertarian Party. It's about time.
